

Stand-Up Comedy Assignment Report

1. Introduction

This report covers the creation of a 5-minute stand-up comedy set about daily life struggles of an Indian college student using ChatGPT. The goal was to produce a funny, relatable script with a light and witty tone using my prompting skills.

2. Prompt Engineering Techniques Used

One-Shot Prompting:

A detailed prompt was used initially to generate the full comedy set with clear themes and tone in one response.

Iterative Prompting:

The script was refined over multiple prompts to improve flow, sharpen punchlines, and make jokes more concise and stage-ready.
